**DETAILED ACTION**

***Reason For Allowance***

1. Claims 1-10 are allowed.
2. Following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 7 and 8, which include (claim 7) one individually addressable pixel, the pixel being provided with an obstructing element, characterized in that a portion of both a storage capacitor and a gate electrode is positioned beneath the obstructing element in such a way that the portion is not visible for a viewer of the display device; (claim 8) a pixel comprising a reflective element, wherein a portion of a source electrode is positioned beneath the reflective element in such a way that the portion is not visible for a viewer of the display device.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
